

Curriculum III Phase Part-2 (Batch-2020)

Date	Competency No.	8AM to 9 AM (Competency)	Mode of Teaching	9 AM to 12 Noon	Competency No.	12 Noon to 1 PM	Mode of Teaching	1 PM to 2 PM	Competency No.	2 PM 4 PM	Mode of Teaching	4 PM to 6 PM
Day-1	IM5.1	Describe and discuss the physiologic and biochemical basis of hyperbilirubinemia	IL	Clinical Posting	OBG-1.3	Define and discuss still birth and abortion	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-2	SU27.8	Demonstrate the correct examination of the lymphatic system	lecture	Clinical Posting	Pe-34.18	Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Dengue, Chikungunya and other vector born diseases	Lecture	Lunch	IM -Module 4.1:	The foundations of communication	Medicine	Evening Clinics
Day-3	CT 1.1	Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India	Lecture, Small group discussion	Clinical Posting	IM6.1	Describe and discuss the symptoms and signs of acute HIV seroconversion	IL	Lunch	OR1.1	principles of triage	Small Group Discussion	Sports/ECC A
Day-4	SU28.1	Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	lecture	Clinical Posting	OBG-1.1, 1.2	Define and discuss birth rate, maternal mortality and morbidity/Define and discuss perinatal mortality and morbidity including perinatal and neonatal mortality and morbidity audit	Self Directed Learning		IM7.1	Describe the pathophysiology of autoimmune disease	IL/small group discussion	Evening Clinics
Day-5	IM9.1 TO IM9.3	Define, describe and classify anemia based on red blood cell size and reticulocyte count Describe and discuss the morphological characteristics, aetiology and prevalence of each of the causes of anemia Elicit document and present a medical history that includes symptoms, risk factors including GI bleeding, prior history, medications, menstrual history, and family history	IL	Clinical Posting	OR1.1	Describe and discuss the Principles of pre-hospital care and Casualty management of a trauma victim including principles of triage	Lecture with video, Small group discussion	Lunch	OBG-2.1	Describe and discuss the development and anatomy of the female reproductive tract, relationship to other pelvic organs, applied anatomy as related to Obstetrics and Gynaecology.	Seminar	Evening Clinics
Day-6	OBG-34.3	Describe and discuss the etiology, pathology, classification, staging, clinical features, differential diagnosis, investigations and management of gestational trophoblastic disease	Lecture	Clinical Posting	SU28.1	Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	Small Group Discussion	Lunch	SU	Metabolic Response to Injury	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-7	IM5.2,3&4	Describe and discuss the aetiology and pathophysiology of liver injury Describe and discuss the pathologic changes in various forms of liver disease Describe and discuss the epidemiology, microbiology, immunology and clinical evolution of infective (viral) hepatitis	IL	Clinical Posting	OBG-9.4	Discuss the clinical features, laboratory investigations, ultrasonography, differential diagnosis, principles of management and follow up of gestational trophoblastic neoplasms	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-8	SU28.1	Describe pathophysiology, clinical features, Investigations and principles of management of Hernias	lecture	Clinical Posting	Pe-34.17	Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Typhoid	Small Group Discussion	Lunch	IM -Module 4.1:	The foundations of communication	Medicine	Evening Clinics
Day-9	CT 1.1	Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India	Lecture, Small group discussion	Clinical Posting	IM6.2 To IM6.7	Define and classify HIV AIDS based on the CDC criteria Describe and discuss the relationship between CDC count and the risk of opportunistic infections Describe and discuss the pathogenesis, evolution and clinical features of common HIV related opportunistic infections Describe and discuss the pathogenesis, evolution and clinical features of common HIV related malignancies Describe and discuss the pathogenesis, evolution and clinical features of common HIV related skin and oral lesions Elicit document and present a medical history that helps delineate the aetiology of the current presentation and includes risk factors for HIV, mode of infection, other sexually transmitted diseases, risks for opportunistic infections and nutritional status	IL	Lunch	OR1.2	management of shock	Small Group Discussion	Sports/ECC A
Day-10	SU28.2	Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	lecture	Clinical Posting	OBG-8.1	Enumerate, describe and discuss the objectives of antenatal care, assessment of period of gestation; screening for high-risk factors.	Demonstration/ Small group discussion		IM7.2 TO IM7.4	Describe the genetic basis of autoimmune disease Classify cause of joint pain based on the pathophysiology Develop a systematic clinical approach to joint pain based on the pathophysiology	IL/small group discussion	Evening Clinics
Day-11	IM9.4 TO IM9.5		IL	Clinical Posting	OR1.2	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock	Lecture	Lunch	OBG-2.1	Describe and discuss the development and anatomy of the female reproductive tract, relationship to other pelvic organs, applied anatomy as related to Obstetrics and Gynaecology	Seminar	Evening Clinics
Day-12	OBG-11.1	Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	Lecture	Clinical Posting	SU28.2	Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	Small Group Discussion	Lunch	SU	Wound Healing	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-13	IM5.5 TO IM5.7	Describe and discuss the pathophysiology and clinical evolution of alcoholic liver disease, Describe and discuss the pathophysiology, clinical evolution and complications of cirrhosis and portal hypertension including ascites, spontaneous bacterial peritonitis, hepatorenal syndrome and hepatic encephalopathy Enumerate and describe the causes and pathophysiology of drug induced liver injury	IL	Clinical Posting	OBG-11.1	Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics
Day-14	SU28.2	Demonstrate the correct technique to examine the patient with hernia and identify different types of hernias.	lecture	Clinical Posting	Pe-34.14	Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of fever in children	Small Group Discussion	Lunch	IM -Module 4.1:	The foundations of communication	Medicine	Evening Clinics
Day-15	CT 1.2	Describe and discuss the microbiology of tubercle bacillus. , mode of transmission, pathogenesis, clinical evolution and natural history of pulmonary and extra pulmonary forms (including lymph node, bone and CNS)	Lecture, Small group discussion	Clinical Posting	IM6.8 TO IM6.9	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology for the presenting symptom Choose and interpret appropriate diagnostic tests to diagnose and classify the severity of HIV-AIDS including specific tests of HIV, CDC	IL	Lunch	OR1.3	management of soft tissue injuries	Small Group Discussion	Sports/ECC A
Day-16	SU28.3	Describe causes, clinical features, complications and principles of mangament of peritonitis	lecture	Clinical Posting	OBG-5.1	Describe, discuss and identify pre-existing medical disorders and discuss their management; discuss evidence-based intrapartum care	Demonstration/ Small group discussion		IM7.2 TO IM7.4	Describe the genetic basis of autoimmune disease Classify cause of joint pain based on the pathophysiology Develop a systematic clinical approach to joint pain based on the pathophysiology	IL/small group discussion	Evening Clinics
Day-17	IM9.6 TO IM9.8	Describe the appropriate diagnostic work up based on the presumed aetiology Describe and discuss the meaning and utility of various components of the hemogram Describe and discuss the various tests for iron deficiency	IL	Clinical Posting	OR1.3	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of soft tissue injuries	Lecture with video, Small group discussion	Lunch	OBG-3.1	Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis	Seminar	Evening Clinics
Day-18	OBG-12.1	Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Lecture	Clinical Posting	SU28.3	Describe causes, clinical features, complications and principles of mangament of peritonitis	Small Group Discussion	Lunch	SU	Haemorrhage & Blood Transfusion	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-19	IM5.8 TO IM5.10	Describe and discuss the pathophysiology, clinical evolution and complications cholelithiasis and cholecystitis Elicit document and present a medical history that helps delineate the aetiology of the current presentation and includes clinical presentation, risk factors, drug use, sexual history, vaccination history and family history Perform a systematic examination that establishes the diagnosis and severity that includes nutritional status, mental status, jaundice, abdominal distension ascites, features of portosystemic hypertension and hepatic encephalopathy	IL	Clinical Posting	OBG-12.1	Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-20	SU28.3	Describe causes, clinical features, complications and principles of mangament of peritonitis	lecture	Clinical Posting	Pe-34.15	Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with exanthematous illnesses like Measles, Mumps, Rubella & Chicken pox	Small Group Discussion	Lunch	IM -Module 4.1:	The foundations of communication	Medicine	Evening Clinics

Day-21	CT 1.3	Describe and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis.	Lecture, Small group discussion	Clinical Posting	IM6.10 TO IM6.11	Choose and interpret appropriate diagnostic tests to diagnose opportunistic infections including CBC, sputum examination and cultures, blood cultures, stool analysis, CSF analysis and Chest radiographs Enumerate the indications and describe the findings for CT of the chest and brain and MRI Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph	IL	Lunch	OR2.2	fractures of proximal humerus	Small Group Discussion	Sports/ECC A
Day-22	SU28.4	Describe pathophysiology, clinical features, investigations and principles of management of Intra-abdominal abscess, mesenteric cyst, and retroperitoneal tumors	lecture	Clinical Posting	OBG-14.1	Enumerate and discuss the diameters of maternal pelvis and types	Demonstration/ Small group discussion		IM7.5 TO IM7.6	Describe and discriminate acute, subacute and chronic causes of joint pain Discriminate, describe and discuss arthralgia from arthritis and mechanical from inflammatory causes of joint pain	IL/small group discussion	Evening Clinics
Day-23	IM9.9 TO IM9.10	Order and interpret tests for anemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate Describe, perform and interpret a peripheral smear and stool occult blood	IL	Clinical Posting	OR1.4	Describe and discuss the Principles of management of soft tissue injuries	Lecture with video, Small group discussion	Lunch	OBG-3.1	Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis	Seminar	Evening Clinics
Day-24	OBG-12.3	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Lecture	Clinical Posting	SU28.4	Describe pathophysiology, clinical features, investigations and	Small Group Discussion	Lunch	SU	Operation Room Care	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-25	IM5.11 TO IM5.12	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology for the presenting symptom Choose and interpret appropriate diagnostic tests including: CBC, bilirubin, function tests, Hepatitis serology and ascitic fluid examination in patient with liver diseases.	IL	Clinical Posting	OBG-12.4	principles of management of Intra-abdominal abscess, mesenteric cyst, and retroperitoneal tumors	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-26	SU28.4	Describe pathophysiology, clinical features, investigations and principles of management of Intra-abdominal abscess, mesenteric cyst, and retroperitoneal tumors	lecture	Clinical Posting	Pe-34.16	Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Diphtheria, Pertussis, Tetanus	Lecture	Lunch	IM -Module 4.1:	The foundations of communication	Medicine	Evening Clinics
Day-27	DR 1.1	Enumerate the causative and risk factors of acne.	Lecture, Small group discussion	Clinical Posting	IM6.12 TO IM6.13	Enumerate the indications for and interpret the results of: pulse oximetry, ABG, Chest Radiograph Describe and enumerate the indications and side effects of drugs for bacterial, viral and other types of diarrhea	IL	Lunch	OR2.3	medications for relief of joint pain	Small Group Discussion	Sports/ECC A
Day-28	SU28.5	Describe the applied Anatomy and physiology of esophagus	lecture	Clinical Posting	OBG-5.2	Determine maternal high risk factors and verify immunization status	Demonstration/ Small group discussion		IM7.7 TO IM7.10	Discriminate, describe and discuss distinguishing articular from periarticular complaints Determine the potential causes of joint pain based on the presenting features of joint involvement Describe the common signs and symptoms of articular and periarticular diseases Describe the systemic manifestations of rheumatologic disease	IL/small group discussion	Evening Clinics

Day-29	IM9.11	Describe the indications and interpret the results of a bone marrow aspirations and biopsy	IL	Clinical Posting	OR1.5	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-4.1	Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis	Seminar	Evening Clinics
Day-30	OBG-12.5	Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of urinary tract infections in pregnancy	Lecture	Clinical Posting	SU28.5	Describe the applied Anatomy and physiology of esophagus	Small Group Discussion	Lunch	SU	Surgical Sepsis	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-31	IM5.13 TO IM5.14	Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver disease Outline a diagnostic approach to liver disease based on hyperbilirubinemia, liver function changes and hepatitis serology	IL	Clinical Posting	OBG-12.6	Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-32	SU28.5	Describe the applied Anatomy and physiology of esophagus	lecture	Clinical Posting	Pe-34.19	Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of children with Common Parasitic infections, malaria, leishmaniasis, filariasis, helminthic infestations, amebiasis, giardiasis	Small Group Discussion	Lunch	IM -Module 4.2	Case studies in medico-legal and ethical situations	Medicine	Evening Clinics
Day-33	DR 1.1	Enumerate the causative and risk factors of acne.	Lecture, Small group	Clinical Posting	IM6.14 TO IM6.15	Perform and interpret AFB sputum Demonstrate in a model the correct technique to perform a lumbar puncture Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions	IL	Lunch	OR2.4	shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit	Small Group Discussion	Sports/ECC A
Day-34	SU28.6	Describe the clinical features, investigations and principles of management of benign and malignant disorders of esophagus	lecture	Clinical Posting	OBG-8.2	Elicit document and present an obstetric history including menstrual history, last menstrual period, previous obstetric history, comorbid conditions, past medical history and surgical history	Demonstration/ Small group discussion		IM7.7 TO IM7.10	Discriminate, describe and discuss distinguishing articular from periarticular complaints Determine the potential causes of joint pain based on the presenting features of joint involvement Describe the common signs and symptoms of articular and periarticular diseases Describe the systemic manifestations of rheumatologic disease	IL/small group discussion	Evening Clinics
Day-35	IM9.12 TO IM9.13	Describe, develop a diagnostic plan to determine the aetiology of anemia Prescribe replacement therapy with iron, B12, folate	IL	Clinical Posting	OR1.6	Participate as a member in the team for closed reduction of shoulder dislocation / hip dislocation / knee dislocation	Simulation, DOAP session	Lunch	OBG-4.1	Describe and discuss the basic embryology of fetus, factors influencing fetal growth and development, anatomy and physiology of placenta, and teratogenesis	Self Directed Learning	Evening Clinics
Day-36	OBG-12.8	Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy	Lecture	Clinical Posting	SU28.6	Describe the clinical features, investigations and principles of management of benign and malignant disorders of esophagus	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Oncology Care	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-37	IM5.15	Assist in the performance and interpret the findings of an ascitic fluid analysis	IL	Clinical Posting	OBG-13.2	Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics
Day-38	SU28.6	Describe the clinical features, investigations and principles of management of benign and malignant disorders of esophagus	lecture	Clinical Posting	Pe-34.2.0	Enumerate the common causes of fever and discuss the etiopathogenesis, clinical features, complications and management of child with Rickettsial diseases	Small Group Discussion	Lunch	IM -Module 4.2	Case studies in medico-legal and ethical situations	Medicine	Evening Clinics
Day-39	DR 1.2	Identify and grade the various common types of acne.	Bedside clinic	Clinical Posting	IM6.16 TO IM6.18	Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions Discuss and describe the principles and regimens used in post exposure prophylaxis Enumerate the indications and discuss prophylactic drugs used to prevent HIV related	IL	Lunch	OR2.5	Galeazzi and Monteggia injury	Small Group Discussion	Sports/ECC A
Day-40	SU28.7	Describe the applied anatomy and physiology of stomach	lecture	Clinical Posting	OBG-8.3	Describe, demonstrate, document and perform an obstetrical examination including a general and abdominal examination and clinical monitoring of maternal and fetal well-being;	Demonstration/ Small group discussion		IM7.11	Elicit document and present a medical history that will differentiate the aetiologies of disease	IL/small group discussion	Evening Clinics
Day-41	IM9.14	Describe the national programs for anemia prevention	IL	Clinical Posting	OR2.1	Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-6.1	Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests.	Seminar	Evening Clinics
Day-42	OBG-13.2	Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	Lecture	Clinical Posting	SU28.7	Describe the applied anatomy and physiology of stomach	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Nutrition and Fluid Therapy	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-43	IM5.16	Describe and discuss the management of hepatitis, cirrhosis, portal hypertension, ascites spontaneous, bacterial peritonitis and hepatic encephalopathy	IL	Clinical Posting	OBG-13.2	Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-44	SU28.7	Describe the applied anatomy and physiology of stomach	lecture	Clinical Posting	Pe-34.1	Discuss the epidemiology, clinical features, clinical types, complications of Tuberculosis in Children and Adolescents	Lecture	Lunch	IM -Module 4.2	Case studies in medico-legal and ethical situations	Medicine	Evening Clinics
Day-45	DR 1.2	Identify and grade the various common types of acne.	Bedside clinic	Clinical Posting	IM6.16 TO IM6.17	Discuss and describe the principles of HAART, the classes of antiretrovirals used, adverse reactions and interactions Discuss and describe the principles and regimens used in post exposure prophylaxis Enumerate the indications and discuss prophylactic drugs used to prevent HIV related opportunistic infections	IL	Lunch	OR2.6	fractures of distal radius	Small Group Discussion	Sports/ECC A

Day-46	SU28.8	Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach	lecture	Clinical Posting	OBG-9.5	Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum	Tutorial		IM7.12 TO IM7.15	Perform a systematic examination of all joints, muscle and skin that will establish the diagnosis and severity of disease Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Describe the appropriate diagnostic work up based on the presumed aetiology Enumerate the indications for and interpret the results of : CBC, anti-CCP, RA, ANA, DNA and other tests of autoimmunity	IL/small group discussion	Evening Clinics
Day-47	IM9.15 TO IM9.17	Communicate the diagnosis and the treatment appropriately to patients Incorporate patient preferences in the management of anemia Describe the indications for blood transfusion and the appropriate use of blood components	IL	Clinical Posting	OR2.2	Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fractures of proximal humerus	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-7.1	Describe and discuss the changes in the genital tract, cardiovascular system, respiratory, haematology, renal and gastrointestinal system in pregnancy	Seminar	Evening Clinics
Day-48	OBG-14.3	Describe and discuss rupture uterus, causes, diagnosis and management	Lecture	Clinical Posting	SU28.8	Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Anaesthesia and Pain Relief	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-49	IM5.17	Enumerate the indications, precautions and counsel patients on vaccination for hepatitis	IL	Clinical Posting	OBG-14.2	Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-50	SU28.8	Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach	lecture	Clinical Posting	Pe-34.2,34.3,34.4	Discuss the various diagnostic tools for childhood tuberculosis,Discuss the various regimens for management of Tuberculosis as per National Guidelines,Discuss the preventive strategies adopted and the objectives and outcome of the National Tuberculosis Control Program	Lecture	Lunch	IM -Module 4.2	Case studies in medico-legal and ethical situations	Medicine	Evening Clinics
Day-51	PS 1.1	Establish rapport and empathy with patients.	DOAP Session Lecture, Small group Discussion	Clinical Posting	IM6.19 TO IM6.22	Counsel patients on prevention of HIV transmission Communicate diagnosis, treatment plan and subsequent follow up plan to patients Communicate with patients on the importance of medication adherence Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV	IL	Lunch	OR2.7	hemodynamic instability	Small Group Discussion	Sports/ECC A

Day-52	SU28.8	Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach	lecture	Clinical Posting	OBG-8.4	Describe and demonstrate clinical monitoring of maternal and fetal well-being	Demonstration/ Small group discussion		IM7.12 TO IM7.15	Perform a systematic examination of all joints, muscle and skin that will establish the diagnosis and severity of disease Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Describe the appropriate diagnostic work up based on the presumed aetiology Enumerate the indications for and interpret the results of : CBC, anti-CCP, RA, ANA, DNA and other tests of autoimmunity	IL/small group discussion	Evening Clinics
Day-53	IM9.18 TO IM9.19	Describe the precautions required necessary when performing a blood transfusion Assist in a blood transfusion	IL	Clinical Posting				Lunch	OBG-8.8	Enumerate the indications and describe the investigations including the use of ultrasound in the initial assessment and monitoring in pregnancy	Intergrated Teaching/Radiology	Evening Clinics
Day-54	OBG-16.2	Describe and discuss uterine inversion – causes, prevention, diagnosis and management	Lecture	Clinical Posting	SU28.8	Describe and discuss the aetiology, the clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis, Peptic ulcer disease, Carcinoma stomach	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Portal Hypertension	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-55	IM5.18	Enumerate the indications for hepatic transplantation	IL	Clinical Posting	OBG-14.4	Describe and discuss the classification; diagnosis; management of abnormal labor	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-56	SU28.9	Demonstrate the correct technique of examination of a patient with disorders of the stomach	lecture	Clinical Posting	Pe-21.1	Enumerate the etio-pathogenesis, clinical features, complications and management of Urinary Tract infection in children	Small Group Discussion	Lunch	Module 4.2	Case studies in medico-legal and ethical situations	Medicine	Evening Clinics
Day-57	PS 1.1	Establish rapport and empathy with patients.	DOAP Session Lect	Clinical Posting	IM6.19 TO IM6.22	Counsel patients on prevention of HIV transmission Communicate diagnosis, treatment plan and subsequent follow up plan to patients Communicate with patients on the importance of medication adherence Demonstrate understanding of ethical and legal issues regarding patient confidentiality and disclosure in patients with HIV	IL	Lunch	OR2.8	spine injuries with emphasis on mobilisation of the patient	Small Group Discussion	Sports/ECC A
Day-58	SU28.9	Demonstrate the correct technique of examination of a patient with disorders of the stomach	lecture	Clinical Posting	OBG-8.5	Describe and demonstrate pelvic assessment in a model	Demonstration/ Small group discussion		IM7.16 TO IM7.18	Enumerate the indications for arthrocentesis Enumerate the indications and interpret plain radiographs of joints Communicate diagnosis, treatment plan and subsequent follow up plan to patients	IL/small group discussion	Evening Clinics
Day-59	IM9.19	Describe the precautions required necessary when performing a blood transfusion Assist in a blood transfusion	IL	Clinical Posting	OR2.2	Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fractures of proximal humerus	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-23.1,23.2,23.3	Describe and discuss the physiology of puberty, features of abnormal puberty, common problems and their management/Enumerate the	Seminar	Evening Clinics
Day-60	OBG-16.2	Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	Lecture	Clinical Posting	SU28.9	Demonstrate the correct technique of examination of a patient with disorders of the stomach	lecture	Lunch	SU	Early Assessment and Management of Trauma	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-61	IM16.1 TO IM16.2	Describe and discuss the aetiology of acute and chronic diarrhea including infectious and non infectious causes Describe and discuss the acute systemic consequences of diarrhea including its impact on fluid balance	IL	Clinical Posting	OBG-16.3	Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics
Day-62	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Clinical Posting	Pe-20.7	Discuss the etiology, clinical features and management of Birth asphyxia	Lecture	Lunch	SU-Module 4.3	Case studies in medico-legal and ethical situations	Surgery	Evening Clinics
Day-63	PS 1.3	Demonstrate breaking of bad news in a simulated environment	DOAP Session Lecture, Small group Discussion	Clinical Posting	IM6.23	Demonstrate a non-judgemental attitude to patients with HIV and to their lifestyles	IL	Lunch	OR2.9	acetabular fracture	Small Group Discussion	Sports/ECC A
Day-64	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Clinical Posting	OBG-8.6	Assess and counsel a patient in a simulated environment regarding appropriate nutrition in pregnancy	Demonstration/ Small group discussion		IM7.16 TO IM7.18	Enumerate the indications for arthrocentesis Enumerate the indications and interpret plain radiographs of joints Communicate diagnosis, treatment plan and subsequent follow up plan to patients	IL/small group discussion	Evening Clinics
Day-65	IM9.20	Communicate and counsel patients with methods to prevent nutritional anemia	IL	Clinical Posting	OR2.3	Select, prescribe and communicate appropriate medications for relief of joint pain	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-32.1	Describe and discuss the physiology of menopause, symptoms, prevention, management and the role of hormone replacement therapy.	Seminar	Evening Clinics
Day-66	OBG-24.1	Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	Lecture	Clinical Posting	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Lunch	SU	Shock	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-67	IM16.3 TO IM16.4	Describe and discuss the chronic effects of diarrhea including malabsorption Elicit and document and present an appropriate history that includes the natural history, dietary history, travel , sexual history and other concomitant illnesses	IL	Clinical Posting	OBG-24.1	Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-68	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Clinical Posting	Pe-20.1 0	Discuss the etiology, clinical features and management of Hemorrhagic disease of New born	Lecture	Lunch	SU-Module 4.3	Case studies in medico-legal and ethical situations	Surgery	Evening Clinics

Day-69	RD 1.1	Define Radiation and the interaction of radiation and importance of radiation protection .	Lecture, Demonstra	Clinical Posting	IM6.23	Demonstrate a non-judgemental attitude to patients with HIV and to their lifestyles	IL	Lunch	OR2.10	fractures of proximal femur	Small Group Discussion	Sports/ECC A
Day-70	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Clinical Posting	OBG-9.2	Describe the steps and observe/ assist in the performance of an MTP evacuation	Demonstration/ Small group discussion		IM7.19 TO IM7.22	Develop an appropriate treatment plan for patients with rheumatologic diseases Select, prescribe and communicate appropriate medications for relief of joint pain Select, prescribe and communicate preventive therapy for crystalline arthropathies Select, prescribe and communicate treatment option for systemic rheumatologic conditions	IL/small group discussion	Evening Clinics
Day-71	IM9.21	Determine the need for specialist consultation	IL	Clinical Posting	OR2.4	Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-12.2	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	Intergrated Teaching/Medicine	Evening Clinics
Day-72	OBG-25.1	Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management	Lecture	Clinical Posting	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Lunch	SU	Salivary Gland Tumours	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-73	IM16.5 TO IM16.6	Perform, document and demonstrate a physical examination based on the history that includes general examination, including an appropriate abdominal examination Distinguish between diarrhea and dysentery based on clinical features	IL	Clinical Posting	OBG-25.1	Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management	Small Group Discussion	Lunch	FA & Feedback	Ortho		Evening Clinics
Day-74	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Clinical Posting	Pe-20.8	Discuss the etiology, clinical features and management of respiratory distress in New born including meconium aspiration and transient tachypnoea of newborn	Small Group Discussion	Lunch	Module 4.3	Case studies in medico-legal and ethical situations	Surgery	Evening Clinics
Day-75	RD 1.1	Define Radiation and the interaction of radiation and importance of radiation protection .	Lecture, Demonstra	Clinical Posting	IM6.23	Demonstrate a non-judgemental attitude to patients with HIV and to their lifestyles	IL	Lunch	OR2.11	compartment syndrome	Small Group Discussion	Sports/ECC A

Day-76	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Clinical Posting	OBG-11.1	Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	Demonstration/ Small group discussion		IM7.19 TO IM7.22	Develop an appropriate treatment plan for patients with rheumatologic diseases Select, prescribe and communicate appropriate medications for relief of joint pain Select, prescribe and communicate preventive therapy for crystalline arthropathies Select, prescribe and communicate treatment option for systemic rheumatologic conditions	IL/small group discussion	Evening Clinics
Day-77	IM11.1	Define and classify diabetes	IL	Clinical Posting	OR2.5	Describe and discuss the aetiopathogenesis, clinical features, mechanism of injury, investigation & principles of management of fractures of both bones forearm and Galeazzi and Monteggia injury	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-10.1	Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	Seminar	Evening Clinics
Day-78	OBG-26.1	Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosi	Lecture	Clinical Posting	SU28.11	Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	lecture	Lunch	SU	Cervical Lymphadenopathy	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-79	IM16.7 TO IM16.8	Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Choose and interpret diagnostic tests based on the clinical diagnosis including complete blood count, and stool examination	IL	Clinical Posting	OBG-26.1	Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosi	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-80	SU28.10	Describe the applied anatomy of liver. Describe the clinical features, Investigations and principles of management of liver abscess, hydatid disease, injuries and tumors of the liver	lecture	Clinical Posting	Pe-20.9	Discuss the etiology, clinical features and management of Birth injuries	Small Group Discussion	Lunch	Module 4.3	Case studies in medico-legal and ethical situations	Surgery	Evening Clinics
Day-81	RD 1.2	Describe the evolution of Radio diagnosis. Identify various radiological equipments in the current era.	Lecture, Demonstra	Clinical Posting	IM8.1 TO IM8.3	Describe and discuss the epidemiology, aetiology and the prevalence of primary and secondary hypertension Describe and discuss the pathophysiology of hypertension Describe and discuss the genetic basis of hypertension	IL	Lunch	OR2.12	fat embolism as a complication	Small Group Discussion	Sports/ECC A

Day-82	SU28.11	Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	lecture	Clinical Posting	OBG-12.1	Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Demonstration/ Small group discussion		IM7.23 TO IM7.25	Describe the basis for biologic and disease modifying therapy in rheumatologic diseases Communicate and incorporate patient preferences in the choice of therapy Develop and communicate appropriate follow up and monitoring plans for patients with rheumatologic conditions	IL/small group discussion	Evening Clinics
Day-83	IM11.2	Describe and discuss the epidemiology and pathogenesis and risk factors and clinical evolution of type 1 diabetes	IL	Clinical Posting	OR2.6	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-11.1	Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	Seminar	Evening Clinics
Day-84	OBG-26.2	Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	Lecture	Clinical Posting	SU28.11	Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	lecture	Lunch	SU	Goitre	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-85	IM16.9 TO IM16.10	Identify common parasitic causes of diarrhea under the microscope in a stool specimen Identify vibrio cholera in a hanging drop specimen	IL	Clinical Posting	OBG-26.2	Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-86	SU28.11	Describe the applied anatomy of spleen. Describe the clinical features, investigations and principles of management of splenic injuries. Describe the post-splenectomy sepsis - prophylaxis	lecture	Clinical Posting	Pe-20.11	Discuss the clinical characteristics, complications and management of Low birth weight (preterm and Small for gestation)	Small Group Discussion	Lunch	SU-Module 4.3	Case studies in medico-legal and ethical situations	Surgery	Evening Clinics
Day-87	AS 1.1	Describe the evolution of Anesthesiology as a modern specialty.	Lecture	Clinical Posting	IM8.4	Define and classify hypertension	IL	Lunch	OR2.13	(a) both bones leg (b) Calcaneus (c) bones of foot	Small Group Discussion	Sports/ECC A
Day-88	SU28.12	Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system		Clinical Posting	OBG-12.2	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	Demonstration/ Small group discussion		IM7.23 TO IM7.25	Describe the basis for biologic and disease modifying therapy in rheumatologic diseases Communicate and incorporate patient preferences in the choice of therapy Develop and communicate appropriate follow up and monitoring plans for patients with rheumatologic	IL/small group discussion	Evening Clinics
Day-89	IM11.3 TO IM11.5	Describe and discuss the epidemiology and pathogenesis and risk factors economic impact and clinical evolution of type 2 diabetes Describe and discuss the genetic background and the influence of the environment on diabetes Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	IL	Clinical Posting	OR2.7	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of pelvic injuries with emphasis on hemodynamic instability	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-12.1	Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Intergrated Teaching/ Medicine	Evening Clinics

Day-90	OBG-28.1	Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	Lecture	Clinical Posting	SU28.12	Describe the applied anatomy of biliary system. Describe the clinical features,	lecture	Lunch	SU	Benign Breast Diseases	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-91	IM16.11 TO IM16.12	Enumerate the indications for stool cultures and blood cultures in patients with acute diarrhea Enumerate and discuss the indications for further investigations including antibodies, colonoscopy, diagnostic imaging and biopsy in the diagnosis of chronic diarrhea	IL	Clinical Posting	OBG-28.2	Enumerate the assessment and restoration of tubal latency	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics
Day-92	SU28.12	Describe the applied anatomy of biliary system. Describe the	lecture	Clinical Posting	Pe-20.12	Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypothermia	Small Group Discussion	Lunch	SU-Module 4.4:	Case studies in ethics empathy and the	Surgery	Evening Clinics
Day-93	AS 1.1	Describe the evolution of Anesthesiology as a modern specialty.	Lecture	Clinical Posting	IM8.5 TO IM8.6	Describe and discuss the differences between primary and secondary hypertension Define, describe and discuss and recognise hypertensive urgency and emergency	IL	Lunch	OR2.14	doctor-patient relationship	Small Group Discussion	Sports/ECC A
Day-94	SU28.12	Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	lecture	Clinical Posting	OBG-3.1	Describe the physiology of ovulation, menstruation, fertilization, implantation and gametogenesis	Tutorial		IM7.26 TO IM7.27	Demonstrate an understanding of the impact of rheumatologic conditions on quality of life, well being, work and family Determine the need for specialist consultation	IL/small group discussion	Evening Clinics
Day-95	IM11.3 TO IM11.5	Describe and discuss the epidemiology and pathogenesis and risk factors economic impact and clinical evolution of type 2 diabetes Describe and discuss the genetic background and the influence of the environment on diabetes Describe and discuss the pathogenesis and temporal evolution of microvascular and macrovascular complications of diabetes	IL	Clinical Posting	OR2.8	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of spine injuries with emphasis on mobilisation of the patient	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-13.2	Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	Seminar	Evening Clinics
Day-96	OBG-28.3	Describe the principles of ovulation induction	Lecture	Clinical Posting	SU28.12	Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Urthral Structure	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-97	IM16.13 TO IM16.14	Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for parasitic causes of diarrhea Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for bacterial and viral diarrhea	IL	Clinical Posting	OBG-28.4	Enumerate the various Assisted Reproduction Techniques	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics

Day-98	SU28.12	Describe the applied anatomy of biliary system. Describe the clinical features, investigations and principles of management of diseases of biliary system	lecture	Clinical Posting	Pe-20.13	Discuss the temperature regulation in neonates, clinical features and management of Neonatal Hypoglycemia	Small Group Discussion	Lunch	SU-Module 4.4:	Case studies in ethics empathy and the	Surgery	Evening Clinics
Day-99	AS 1.2	Describe the roles of Anesthesiology in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labor analgesia, in the resuscitation of acutely ill.	Lecture	Clinical Posting	IM8.7 TO IM8.8	Describe and discuss the clinical manifestations of the various aetiologies of secondary causes of hypertension Describe, discuss and identify target organ damage due to hypertension	IL	Lunch	OR2.15	doctor-patient relationship	Small Group Discussion	Sports/ECC A
Day-100	SU28.13	Describe the applied anatomy of small and large intestine	lecture	Clinical Posting	OBG-12.3	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Small Group Discussion		IM7.18	Communicate diagnosis, treatment plan and subsequent follow up plan to patients	IL/small group discussion	Evening Clinics
Day-101	IM11.6 TO IM11.7	Describe and discuss the pathogenesis and precipitating factors, recognition and management of diabetic emergenciesElicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease	IL	Clinical Posting	OR2.9	Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-27.1	Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of sexually transmitted infections	Seminar	Evening Clinics
Day-102	OBG-29.1	Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	Lecture	Clinical Posting	SU28.13	Describe the applied anatomy of small and large intestine	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Hernia	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-103	IM16.13 TO IM16.14	Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for parasitic causes of diarrhea Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for bacterial and viral diarrhea	IL	Clinical Posting	OBG-29.1	Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-104	SU28.13	Describe the applied anatomy of small and large intestine	lecture	Clinical Posting	Pe-20.14,20.15	Discuss the etiology, clinical features and management of Neonatal hypocalcemia , Discuss the etiology, clinical features and management of Neonatal seizures	Small Group Discussion	Lunch	SU-Module 4.4:	Case studies in ethics empathy and the	Surgery	Evening Clinics

Day-105	CT 1.3	Describe and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis.	Lecture, Small group discussion	Clinical Posting	IM8.9 TO IM8.10	Elicit document and present a medical history that includes: duration and levels, symptoms, comorbidities, lifestyle, risk factors, family history, psychosocial and environmental factors, dietary assessment, previous and concomitant therapy Perform a systematic examination that includes : an accurate measurement of blood pressure, fundus examination, examination of vasculature and heart	IL	Lunch	OR2.16	doctor-patient relationship	Small Group Discussion	Sports/ECC A
Day-106	SU28.14	Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome	lecture	Clinical Posting	OBG-29.1	Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	Demonstration/ Small group discussion		IM10.1	Define, describe and differentiate between acute and chronic renal failure	IL/small group discussion	Evening Clinics
Day-107	IM11.8 TO IM11.9	Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries) Describe and recognise the clinical features of patients who present with a diabetic emergency	IL	Clinical Posting	OR2.10	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-12.2	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	Intergrated Teaching/ Medicine	Evening Clinics
Day-108	OBG-31.1	Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Lecture	Clinical Posting	SU28.14	Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Malignant Melanoma	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-109	IM16.15 TO IM16.16	Distinguish based on the clinical presentation Crohn's disease from Ulcerative Colitis Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy including immunotherapy	IL	Clinical Posting	OBG-31.1	Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-110	SU28.14	Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome	lecture	Clinical Posting	Pe-20.16,20.17	Discuss the etiology, clinical features and management of Neonatal Sepsis ,Discuss the etiology, clinical features and management of Perinatal infections	Small Group Discussion	Lunch	SU-Module 4.4:	Case studies in ethics empathy and the	Surgery	Evening Clinics
Day-111	CT 1.4	Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs.	Lecture, Small group discussion	Clinical Posting	IM8.11 TO IM8.12	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Describe the appropriate diagnostic work up based on the presumed aetiology	IL	Lunch	OR3.1	doctor-patient relationship	Small Group Discussion	Sports/ECC A

Day-112	SU28.14	Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome	lecture	Clinical Posting	OBG-31.1	Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Demonstration/ Small group discussion		IM10.2 TO IM10.3	Classify, describe and differentiate the pathophysiologic causes of acute renal failure Describe the pathophysiology and causes of pre renal ARF, renal and post renal ARF	IL/small group discussion	Evening Clinics
Day-113	IM11.8 TO IM11.9	Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot (pulses, nervous and deformities and injuries) Describe and recognise the clinical features of patients who present with a diabetic emergency	IL	Clinical Posting	OR2.11	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (c) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrome	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-29.1	Describe and discuss the etiology; pathology; clinical features; differential diagnosis; investigations; principles of management, complications of fibroid uterus	Seminar	Evening Clinics
Day-114	OBG-30.1	Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	Lecture	Clinical Posting	SU28.14	Describe the clinical features, investigations and principles of	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Burn	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-115	IM16.17	Describe and enumerate the indications for surgery in inflammatory bowel disease	IL	Clinical Posting	OBG-33.2	management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics
Day-116	SU28.14	Describe the clinical features, investigations and principles of management of disorders of small and large intestine including neonatal obstruction and Short gut syndrome		Clinical Posting	Pe-20.18,20.19	Identify and stratify risk in a sick neonate using IMNCI guidelines, Discuss the etiology, clinical features and management of Neonatal hyperbilirubinemia	Small Group Discussion	Lunch	SU-Module 4.4:	Case studies in ethics empathy and the	Surgery	Evening Clinics
Day-117	CT 1.4	Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs.	Lecture, Small group discussion	Clinical Posting	IM8.13 TO IM8.14	Enumerate the indications for and interpret the results of : CBC, Urine routine, BUN, Cr, Electrolytes, Uric acid, ECG Develop an appropriate treatment plan for essential hypertension	IL	Lunch	OR3.2	doctor-patient relationship	Small Group Discussion	Sports/ECC A
Day-118	SU28.15	Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications.	lecture	Clinical Posting	OBG-33.3	Describe and demonstrate the screening for cervical cancer in a simulated environment	Demonstration/ Small group discussion		IM10.4 TO IM10.5	Describe the evolution, natural history and treatment of ARF Describe and discuss the aetiology of CRF	IL/small group discussion	Evening Clinics

Day-119	IM 11.10 TO IM11.12	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile Perform and interpret a capillary blood glucose test	IL	Clinical Posting	OR2.12	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-27.2	Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	Seminar	Evening Clinics
Day-120	OBG-30.2	Enumerate the causes and describe the investigations and management of hyperandrogenism	Lecture	Clinical Posting	SU28.15	Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications.	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Lymphoma	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-121	IM16.17	Describe and enumerate the indications for surgery in inflammatory bowel disease	IL	Clinical Posting	OBG-33.2	Describe the principles of management including surgery and radiotherapy of Benign, Pre-malignant (CIN) and Malignant Lesions of the Cervix	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-122	SU28.15	Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications.	lecture	Clinical Posting	Pe-20.2 0	Identify clinical presentations of common surgical conditions in the new born including TEF, esophageal atresia, anal atresia, cleft lip and palate, congenital diaphragmatic hernia and causes of acute abdomen	Small Group Discussion	Lunch	OBG-Module 4.5:	Case studies in ethics: the doctor-industry	OBG	Evening Clinics
Day-123	CT 1.5	Elicit, document and present an appropriate medical history that includes risk factor contacts, symptoms including cough and fever CNS and other manifestations.	Bed side clinic, DOAP session	Clinical Posting	IM8.15 TO IM8.16	Recognise, prioritise and manage hypertensive emergencies Develop and communicate to the patient lifestyle modification including weight reduction, moderation of alcohol intake, physical activity and sodium intake	IL	Lunch	OR3.3	relationship	Small Group Discussion	Sports/ECC A
Day-124	SU28.15	Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications.	lecture	Clinical Posting	OBG-6.1	Describe, discuss and demonstrate the clinical features of pregnancy, derive and discuss its differential diagnosis, elaborate the principles underlying and interpret pregnancy tests	Self Directed Learning		IM10.6 TO IM10.8	Stage Chronic Kidney Disease Describe and discuss the pathophysiology and clinical findings of uraemia Classify, describe and discuss the significance of proteinuria in CKD	IL/small group discussion	Evening Clinics
Day-125	IM 11.10 TO IM11.12	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile Perform and interpret a capillary blood glucose test	IL	Clinical Posting	OR2.13	Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-12.3	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Intergrated Teaching/Medicine	Evening Clinics

Day-126	OBG-33.1	Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Lecture	Clinical Posting	SU28.15	Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications.	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Congenital Spinal Dyraphism	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-127	IM12.1	Describe the epidemiology and pathogenesis of hypothyroidism and hyperthyroidism including the influence of iodine deficiency and autoimmunity in the pathogenesis of thyroid disease	IL	Clinical Posting	OBG-33.4	Enumerate the methods to prevent cancer of cervix including visual inspection with acetic acid (VIA), visual inspection of cervix with Lugol's iodine (VILI), pap smear and colposcopy	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-128	SU28.15	Describe the clinical features, investigations and principles of management of diseases of Appendix including appendicitis and its complications.	lecture	Clinical Posting	Pe-28.18	Describe the etio-pathogenesis, diagnosis, clinical features, management and prevention of lower respiratory infections including bronchiolitis, wheeze associated LRTI Pneumonia and empyema	Lecture	Lunch	OBG-Module 4.5:	Case studies in ethics: the doctor-industry	OBG	Evening Clinics
Day-129	CT 1.5	Elicit, document and present an appropriate medical history that includes risk factor contacts, symptoms including cough and fever CNS and other manifestations.	Bed side clinic, DOAP session	Clinical Posting	IM8.17 TO IM8.18	Perform and interpret a 12 lead ECG Incorporate patient preferences in the management of HTN	IL	Lunch	Pe-28.1,28.2,28.3,28.4	relationship	Small Group Discussion	Sports/ECC A
Day-130	SU28.16	Describe applied anatomy including congenital anomalies of the	lecture	Clinical Posting	OBG-27.4	Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	Self Directed Learning		IM10.9 TO IM10.11	Describe and discuss the pathophysiology of anemia and hyperparathyroidism in CKD Describe and discuss the association between CKD glycemia and hypertension Describe and discuss the relationship between CAD risk factors and CKD and in dialysis	IL/small group discussion	Evening Clinics
Day-131	IM11.13 TO IM11.14	Perform and interpret a urinary ketone estimation with a dipstick Recognise the presentation of hypoglycaemia and outline the principles on its therapy	IL	Clinical Posting	OR2.14	Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of ankle fractures	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-31.1	Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Seminar	Evening Clinics
Day-132	OBG-34.2	Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principal of management including staging laparotomy	Lecture	Clinical Posting	SU28.16	Describe applied anatomy including congenital anomalies of the rectum and anal canal	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Empyema Thoracis	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-133	IM12.2	Describe and discuss the genetic basis of some forms of thyroid dysfunction	IL	Clinical Posting	OBG-34.2	Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principal of management including staging laparotomy	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-134	SU28.16	Describe applied anatomy including congenital anomalies of the	lecture	Clinical Posting	Pe-15.1,15.2	Discuss the fluid and electrolyte requirement in health and disease ,, Discuss the clinical features and complications of fluid and electrolyte imbalance and outline the management	Small Group Discussion	Lunch	OBG-Module 4.5:	Case studies in ethics: the doctor-industry	OBG	Evening Clinics
Day-135	DR 1.2	Identify and grade the various common types of acne.	Bedside clinic	Clinical Posting	IM8.19 TO IM8.20	Demonstrate understanding of the impact of Hypertension on quality of life, well being, work and family Determine the need for specialist consultation	IL	Lunch	Pe-28.5,28.6,28.7,28.8	relationship	Small Group Discussion/Self directed learning	Sports/ECC A
Day-136	SU28.17	Describe the clinical features, investigations and principles of management of common anorectal diseases	lecture	Clinical Posting	OBG-22.2	Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	Demonstration/ Small group discussion		IM10.12 TO IM10.15	Elicit document and present a medical history that will differentiate the aetiologies of disease, distinguish acute and chronic disease, identify predisposing conditions, nephrotoxic drugs and systemic causes Perform a systematic examination that establishes the diagnosis and severity including determination of volume status, presence of edema and heart failure, features of uraemia and associated systemic disease Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Describe the appropriate diagnostic work up based on the presumed aetiology	IL/small group discussion	Evening Clinics
Day-137	IM11.15	Recognise the presentation of diabetic emergencies and outline the principles of therapy	IL	Clinical Posting	OR2.15	Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-21.1	Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	Seminar	Evening Clinics

Day-138	OBG-34.1	Describe and discuss aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer	Lecture	Clinical Posting	SU28.16	Describe applied anatomy including congenital anomalies of the rectum and anal canal	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Empyema Thoracis	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-139	IM12.2	Describe and discuss the genetic basis of some forms of thyroid dysfunction	IL	Clinical Posting	OBG-34.1	Describe and discuss aetiology, pathology, staging clinical features, differential diagnosis, investigations, staging laparotomy and principles of management of endometrial cancer	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics
Day-140	SU28.16	Describe applied anatomy including congenital anomalies of the	lecture	Clinical Posting	Pe-26.1,26.2	Discuss the etio-pathogenesis, clinical features and management of acute hepatitis in children.,Discuss the etio-pathogenesis, clinical features and management of Fulminant Hepatic Failure in children	Small Group Discussion	Lunch	OBG-21.1	Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	Seminar	Evening Clinics
Day-141	DR 1.3	Describe the treatment and preventive measures for various kind of acne.	Lecture, Small group discussion	Clinical Posting	IM8.19 TO IM8.20	Demonstrate understanding of the impact of Hypertension on quality of life, well being, work and family Determine the need for specialist consultation	IL	Lunch	Pe-26.3,26.4,26.11,26.12	relationship	Small Group Discussion	Sports/ECC A
Day-142	SU28.17	Describe the clinical features, investigations and principles of management of common anorectal diseases	lecture	Clinical Posting	OBG-9.1	Classify, define and discuss the aetiology and management of abortions including threatened, incomplete, inevitable, missed and septic	Tutorial		IM10.12 TO IM10.15	Elicit document and present a medical history that will differentiate the aetiologies of disease, distinguish acute and chronic disease, identify predisposing conditions, nephrotoxic drugs and systemic causes Perform a systematic examination that establishes the diagnosis and severity including determination of volume status, presence of edema and heart failure, features of uraemia and associated systemic disease Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology Describe the appropriate diagnostic work up based on the presumed aetiology	IL/small group discussion	Evening Clinics
Day-143				Clinical Posting	OR2.15	Plan and interpret the investigations to diagnose complications of fractures like malunion, non-union, infection, compartmental syndrome	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-12.7	Describe and discuss screening, risk factors, management of mother and newborn with HIV	Intergrated Teaching/Pediatrics	Evening Clinics

Day-144	OBG-9.3	Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management	Lecture	Clinical Posting	SU28.16	Describe applied anatomy including congenital anomalies of the rectum and anal canal	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Empyema Thoracis	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-145	IM12.3	Describe and discuss the physiology of the hypothalamopituitary - thyroid axis, principles of thyroid function testing and alterations in physiologic function	IL	Clinical Posting	OBG-9.3	Discuss the aetiology, clinical features, differential diagnosis of acute abdomen in early pregnancy (with a focus on ectopic pregnancy) and enumerate the principles of medical and surgical management	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-146	SU28.17	Describe the clinical features, investigations and principles of management of common anorectal diseases	lecture	Clinical Posting	Pe-25.1	Discuss the etio-pathogenesis, clinical presentation and management of Malabsorption in Children and its causes including celiac disease	Lecture	Lunch	OBG-Module 4.5:	Case studies in ethics: the doctor-industry	OBG	Evening Clinics
Day-147	DR 1.3	Describe the treatment and preventive measures for various kind of acne.	Lecture, Small group discussion	Clinical Posting	IM13.1	Describe the clinical epidemiology and inherited & modifiable risk factors for common malignancies in India	IL	Lunch	Pe-28.19,31.10,31.1,31.3	relationship	Lecture/self directed learning	Sports/ECC A
Day-148	SU28.18	Describe and demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan	lecture	Clinical Posting	OBG-10.1	Define, classify and describe the aetiology, pathogenesis, clinical features, ultrasonography, differential diagnosis and management of antepartum haemorrhage in pregnancy	Self Directed Learning		IM10.16 TO IM10.20	Enumerate the indications for and interpret the results of : renal function tests, calcium, phosphorus, PTH, urine electrolytes, osmolality, Anion gap Describe and calculate indices of renal function based on available laboratories including FENa (Fractional Excretion of Sodium) and CrCl (Creatinine Clearance) Identify the ECG findings in hyperkalemia Enumerate the indications and describe the findings in renal ultrasound Describe and discuss the indications to perform arterial blood gas analysis: interpret the data	IL/small group discussion	Evening Clinics
Day-149	IM11.16 TO IM11.17	Discuss and describe the pharmacologic therapies for diabetes their indications, contraindications, adverse reactions and interactions Outline a therapeutic approach to therapy of T2Diabetes based on presentation, severity and complications in a cost effective manner	IL	Clinical Posting	OR2.16	Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of open fractures with focus on secondary infection prevention and management	Lecture, Small group discussion, Bed side clinic	Lunch	OBG-22.1	Describe the clinical characteristics of physiological vaginal discharge	Seminar	Evening Clinics
Day-150	OBG-9.5	Describe the etiopathology, impact on maternal and fetal health and principles of management of hyperemesis gravidarum	Lecture	Clinical Posting	SU28.18	Describe and demonstrate clinical examination of abdomen. Order	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Development of Face, Cleft lip & Palate	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-151	IM12.4	Describe and discuss the principles of radio iodine uptake in the diagnosis of thyroid disorders	IL	Clinical Posting	OBG-10.2	relevant investigations. Describe and discuss appropriate treatment plan	Small Group Discussion	Lunch	FA & Feedback	Ortho		Evening Clinics

Day-152	SU28.18	Describe and demonstrate clinical examination of abdomen. Order relevant investigations. Describe and discuss appropriate treatment plan	lecture	Clinical Posting	Pe-31.12	Discuss the etio-pathogenesis, clinical features and complications and management of Urticaria Angioedema	Small Group Discussion	Lunch	OBG-Module 4.5:	Case studies in ethics: the doctor-industry	OBG	Evening Clinics
Day-153	DR 2.1	Identify and differentiate vitiligo	Bedside clinic	Clinical Posting	IM13.2 TO IM13.3	Describe the genetic basis of selected cancers Describe the relationship between infection and cancers	IL	Lunch	Pe-20.1,20.2,7.1,7.2,7.3,7.4,7.6	industry relationship	Small Group Discussion/Self directed learning	Sports/ECC A
Day-154	SU29.1	Describe the causes, investigations and principles of management of Hematuria	lecture	Clinical Posting	OBG-23.2	Enumerate the causes of delayed puberty. Describe the investigation and management of common causes	Demonstration/ Small group discussion		IM10.16 TO IM10.20	Enumerate the indications for and interpret the results of : renal function tests, calcium, phosphorus, PTH, urine electrolytes, osmolality, Anion gap Describe and calculate indices of renal function based on available laboratories including FENa (Fractional Excretion of Sodium) and CrCl (Creatinine Clearance) Identify the ECG findings in hyperkalemia Enumerate the indications and describe the findings in renal ultrasound Describe and discuss the indications to perform arterial blood gas analysis: interpret the data	IL/small group discussion	Evening Clinics
Day-155	IM11.18 TO IM11.20	Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease Demonstrate and counsel patients on the correct technique to administer insulin Demonstrate to and counsel patients on the correct technique of self monitoring of blood glucoses	IL	Clinical Posting	OR3.2	Participate as a member in team for aspiration of joints under supervision	Small group Discussion. DOAP session	Lunch	OBG-28.1	Describe and discuss the common causes, pathogenesis, clinical features, differential diagnosis; investigations; principles of management of infertility – methods of tubal patency, ovulation induction, assisted reproductive techniques	Seminar	Evening Clinics
Day-156	OBG-14.1	Enumerate and discuss the diameters of maternal pelvis and types	Lecture	Clinical Posting	SU29.1	Describe the causes, investigations and principles of management of Hematuria	Lecture, Small group discussion, Bed side clinic	Lunch	SU	CA Oral Cavity	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-157	IM12.5	Elicit document and present an appropriate history that will establish the diagnosis cause of thyroid dysfunction and its severity	IL	Clinical Posting	OBG-14.1	Enumerate and discuss the diameters of maternal pelvis and types	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-158	SU29.1	Describe the causes, investigations and principles of management of Hematuria	lecture	Clinical Posting	Pe-21.2	Enumerate the etio-pathogenesis, clinical features, complications and management of acute post-streptococcal Glomerular Nephritis in children	Lecture	Lunch	OBG-Module 4.6:	Case studies in ethics and the doctor -	OBG	Evening Clinics

Day-159	DR 2.1	Identify and differentiate vitiligo	Bedside clinic	Clinical Posting	IM13.4 TO IM13.5	Describe the natural history, presentation, course, complications and cause of death for common cancers Describe the common issues encountered in patients at the end of life and principles of management	IL	Lunch	Pe-21.3,21.4	industry relationship	Small Group Discussion	Sports/ECC A
Day-160	SU29.2	Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	lecture	Clinical Posting	OBG-12.1	Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia.	Self Directed Learning		IM10.21 TO IM10.22	Describe and discuss the indications for and insert a peripheral intravenous catheter Describe and discuss the indications, demonstrate in a model and assist in the insertion of a central venous or a dialysis catheter	IL/small group discussion	Evening Clinics
Day-161	IM11.18 TO IM11.20	Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease Demonstrate and counsel patients on the correct technique to administer insulin Demonstrate to and counsel patients on the correct technique of self monitoring of blood glucoses	IL	Clinical Posting	OR3.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	Lecture, Small group discussion, Video assisted lecture	Lunch	OBG-17.1,17.2	Describe and discuss the physiology of lactation/Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding	Intergrated Teaching/Pediatrics	Evening Clinics
Day-162	OBG-15.1	Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	Lecture	Clinical Posting	SU29.2	Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Tumor Markers	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-163	IM12.6 TO IM12.7	Perform and demonstrate a systematic examination based on the history that will help establish the diagnosis and severity including systemic signs of thyrotoxicosis and hypothyroidism, palpation of the pulse for rate and rhythm abnormalities, neck palpation of the thyroid and lymph nodes and cardiovascular findings Demonstrate the correct technique to palpate the thyroid	IL	Clinical Posting	OBG-15.1	Enumerate and describe the indications and steps of common obstetric procedures, technique and complications: Episiotomy, vacuum extraction; low forceps; Caesarean section, assisted breech delivery; external cephalic version; cervical cerclage	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-164	SU29.2	Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	lecture	Clinical Posting	Pe-21.5	Enumerate the etio-pathogenesis, clinical features, complications and management of Acute Renal Failure in children	Small Group Discussion	Lunch	OBG-Module 4.6:	Case studies in ethics and the doctor -	OBG	Evening Clinics

Day-165	PS 1.3	Demonstrate breaking of bad news in a simulated environment	DOAP Session Lecture, Small group Discussion	Clinical Posting	IM13.6 TO IM13.7	Describe and distinguish the difference between curative and palliative care in patients with cancer Elicit document and present a history that will help establish the aetiology of cancer and includes the appropriate risk factors, duration and evolution	IL	Lunch	Pe-21.6	industry relationship	Small Group Discussion	Sports/ECC A
Day-166	SU29.2	Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	lecture	Clinical Posting	OBG-12.2	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of anemia in pregnancy	Tutorial		IM10.23 TO IM10.24	Communicate diagnosis treatment plan and subsequent follow up plan to patients Counsel patients on a renal diet	IL/small group discussion	Evening Clinics
Day-167	M11.18 TO IM11.20	Describe and discuss the pharmacology, indications, adverse reactions and interactions of drugs used in the prevention and treatment of target organ damage and complications of Type II Diabetes including neuropathy, nephropathy, retinopathy, hypertension, dyslipidemia and cardiovascular disease Demonstrate and counsel patients on the correct technique to administer insulin Demonstrate to and counsel patients on the correct technique of self monitoring of blood glucoses	IL	Clinical Posting	OR3.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	Lecture, Small group discussion, Video assisted lecture	Lunch	OBG-28.3	Describe the principles of ovulation induction	Seminar	Evening Clinics
Day-168	OBG-22.1	Describe the clinical characteristics of physiological vaginal discharge.	Lecture	Clinical Posting	SU29.2	Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	Lecture, Small group discussion, Bed side clinic	Lunch	SU	Urology	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-169	IM12.8	Generate a differential diagnosis based on the clinical presentation and prioritise it based on the most likely diagnosis	IL	Clinical Posting	OBG-22.2	Describe and discuss the etiology (with special emphasis on Candida, T. vaginalis, bacterial vaginosis), characteristics, clinical diagnosis, investigations, genital hygiene, management of common causes and the syndromic management	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics
Day-170	SU29.2	Describe the clinical features, investigations and principles of management of congenital anomalies of genitourinary system	lecture	Clinical Posting	Pe-21.7	Enumerate the etio-pathogenesis, clinical features, complications and management of Wilms Tumor	Small Group Discussion	Lunch	OBG-Module 4.6:	Case studies in ethics and the doctor -	OBG	Evening Clinics

Day-171	PS 1.4	Describe and demonstrate the importance of confidentiality in patient encounters	DOAP Session Lecture, Small group Discussion	Clinical Posting	IM13.8 TO IM13.9	Perform and demonstrate a physical examination that includes an appropriate general and local examination that excludes the diagnosis, extent spread and complications of cancer Demonstrate in a mannequin the correct technique for performing breast exam, rectal examination and cervical examination and pap smear	IL	Lunch	Pe-21.17	industry relationship	Lecture	Sports/ECC A
Day-172	SU29.3	Describe the Clinical features, Investigations and principles of management of urinary tract infections	lecture	Clinical Posting	OBG-35.14	Demonstrate the correct technique to perform and suture episiotomies in a simulated/ supervised environment	Demonstration/ Small group discussion		IM10.25	Identify and describe the priorities in the management of ARF including diet, volume management, alteration in doses of drugs, monitoring and indications for dialysis	IL/small group discussion	Evening Clinics
Day-173	IM11.21 TO IM11.22	Recognise the importance of patient preference while selecting therapy for diabetes Enumerate the causes of hypoglycaemia and describe the counter hormone response and the initial approach and treatment	IL	Clinical Posting	OR3.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Bone and Joint infections a) Acute Osteomyelitis b) Subacute osteomyelitis c) Acute Suppurative arthritis d) Septic arthritis & HIV infection e) Spirochaetal infection f) Skeletal Tuberculosis	Lecture, Small group discussion, Video assisted lecture	Lunch	OBG-28.4	Enumerate the various Assisted Reproduction Techniques	Seminar	Evening Clinics
Day-174	OBG-20.1	Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of complications of Medical Termination of Pregnancy	Lecture	Clinical Posting	SU29.3	Describe the Clinical features, Investigations and principles of management of urinary tract infections	lecture	Lunch	SU	Urology	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-175	IM12.9	Order and interpret diagnostic testing based on the clinical diagnosis including CBC, thyroid function tests and ECG and radio iodine uptake and scan	IL	Clinical Posting	OBG-20.3	Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC& PNDT) Act 1994 & its amendments	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-176	SU29.3	Describe the Clinical features, Investigations and principles of management of urinary tract infections	lecture	Clinical Posting	Pe-29.1	Discuss the etio-pathogenesis, clinical features, classification and approach to a child with anaemia	Small Group Discussion	Lunch	OBG-Module 4.6:	Case studies in ethics and the doctor -	OBG	Evening Clinics
Day-177	PS 1.4	Describe and demonstrate the importance of confidentiality in patient encounters	DOAP Session Lecture, Small group Discussion	Clinical Posting	M13.10 TO IM13.11	Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Order and interpret diagnostic testing based on the clinical diagnosis including CBC and stool occult blood and prostate specific antigen	IL	Lunch	Pe-29.2	industry relationship	Small Group Discussion	Sports/ECC A

Day-178	SU29.4	Describe the clinical features, investigations and principles of management of hydronephrosis	lecture	Clinical Posting	OBG-25.1	Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management	Self Directed Learning		IM10.26	Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glycemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidism	IL/small group discussion	Evening Clinics
Day-179	IM11.21 TO IM11.22	Recognise the importance of patient preference while selecting therapy for diabetes Enumerate the causes of hypoglycaemia and describe the counter hormone response and the initial approach and treatment	IL	Clinical Posting	OR3.3	Participate as a member in team for procedures like drainage of abscess, sequestrectomy/ saucerisation and arthrotomy	DOAP session, Video demonstration	Lunch	OBG-18.1	Describe and discuss the assessment of maturity of the newborn, diagnosis of birth asphyxia, principles of resuscitation, common problems	Intergrated Teaching/Pediatrics	Evening Clinics
Day-180	OBG-16.3	Describe and discuss causes, clinical features, diagnosis, investigations; monitoring of fetal well-being, including ultrasound and fetal Doppler; principles of management; prevention and counselling in intrauterine growth retardation	Lecture	Clinical Posting	SU29.4	Describe the clinical features, investigations and principles of management of hydronephrosis	lecture	Lunch	SU	Urology	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-181	IM12.10	Identify atrial fibrillation, pericardial effusion and bradycardia on ECG	IL	Clinical Posting	OBG-24.1	Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-182	SU29.4	Describe the clinical features, investigations and principles of management of hydronephrosis	lecture	Clinical Posting	Pe-29.3,29.5	Discuss the etiopathogenesis, clinical features and management of VIT B12, Folate deficiency anaemia.,Discuss the National Anaemia Control Program	Lecture	Lunch	OBG-Module 4.6:	Case studies in ethics and the doctor -	OBG	Evening Clinics
Day-183	PS2.1	Define stress and describe its components	DOAP Session Lecture, Small group Discussion	Clinical Posting	M13.12 TO IM13.14	Describe the indications and interpret the results of Chest X Ray, mammogram, skin and tissue biopsies and tumor markers used in common cancers Describe and assess pain and suffering objectively in a patient with cancer	IL	Lunch	Pe-29.4,29.16,29.20	Discuss the etio-pathogenesis, clinical features and management of Hemolytic anemia, Thalassemia Major, Sickle cell anaemia, Hereditary spherocytosis, Auto-immune hemolytic anaemia and hemolytic uremic syndrome., Discuss the indications for Hemoglobin electrophoresis and interpret report.,Enumerate the indications for splenectomy and precautions	Lecture	Sports/ECC A
Day-184	SU29.4	Describe the clinical features, investigations and principles of management of hydronephrosis	lecture	Clinical Posting	OBG-24.1	Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	Self Directed Learning		IM10.26	Describe and discuss supportive therapy in CKD including diet, anti hypertensives, glycemic therapy, dyslipidemia, anemia, hyperkalemia, hyperphosphatemia and secondary hyperparathyroidism	IL/small group discussion	Evening Clinics
Day-185	IM11.23 TO IM11.24	Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of diabetic ketoacidosis Describe the precipitating causes, pathophysiology, recognition, clinical features, diagnosis, stabilisation and management of Hyperosmolar non ketotic state	IL	Clinical Posting	OR4.1	OrDescribe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spinethopedics	Lecture, Small group discussion, Case discussion	Lunch	OBG-33.2	Describe the principles of management including surgery and radiotherapy of Benign, Pre-malignant (CIN) and Malignant Lesions of the Cervix	Seminar	Evening Clinics
Day-186	OBG-13.2	Define, describe the causes, pathophysiology, diagnosis, investigations and management of preterm labor, PROM and postdated pregnancy	Lecture	Clinical Posting	SU29.4	Describe the clinical features, investigations and principles of management of hydronephrosis	lecture	Lunch	SU	Urology	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-187	IM12.11	Interpret thyroid function tests in hypo and hyperthyroidism	IL	Clinical Posting	OBG-14.2	Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-188	SU29.4	Describe the clinical features, investigations and principles of management of hydronephrosis	lecture	Clinical Posting	Pe-29.6	Discuss the cause of thrombocytopenia in children: describe the clinical features and management of Idiopathic Thrombocytopenic Purpura (ITP)	Small Group Discussion	Lunch	Pe-Module 4.7:	Case studies in ethics and patient autonomy	Pedia	Evening Clinics
Day-189	PS2.1	Define stress and describe its components and causes.	DOAP Session Lecture, Small group Discussion	Clinical Posting	M13.15 TO IM13.18	Describe the indications for surgery, radiation and chemotherapy for common malignancies Describe the need, tests involved, their utility in the prevention of common malignancies Demonstrate an understanding and needs and preferences of patients when choosing curative and palliative therapy Describe and enumerate the indications, use, side effects of narcotics in pain alleviation in patients with cancer Describe and discuss the ethical and the medico legal issues involved in end of life care	IL	Lunch	Pe-29.7	Discuss the etiology, classification, pathogenesis and clinical features of Hemophilia in children	Small Group Discussion	Sports/ECC A
Day-190	SU29.5	Describe the clinical features, investigations and principles of management of renal calculi	lecture	Clinical Posting	OBG-27.2	Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of genital tuberculosis	Tutorial		IM10.27	Describe and discuss the indications for renal dialysis	IL/small group discussion	Evening Clinics
Day-191	IM15.1	Enumerate, describe and discuss the aetiology of upper and lower GI bleeding	IL	Clinical Posting	OR4.1	Or Describe and discuss the clinical features, Investigation and principles of management of Tuberculosis affecting major joints (Hip, Knee) including cold abscess and caries spine/hopedics	Lecture, Small group discussion, Case discussion	Lunch	OBG-33.1	Classify, describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations and staging of cervical cancer	Seminar	Evening Clinics
Day-192	OBG-14.3	Describe and discuss rupture uterus, causes, diagnosis and management	Lecture	Clinical Posting	SU29.5	Describe the clinical features, investigations and principles of management of renal calculi	lecture	Lunch	SU	Urology	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-193	IM12.11	Interpret thyroid function tests in hypo and hyperthyroidism	IL	Clinical Posting	OBG-11.1	Describe the etiopathology, clinical features; diagnosis and investigations, complications, principles of management of multiple pregnancies	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics

Day-194	SU29.5	Describe the clinical features, investigations and principles of management of renal calculi	lecture	Clinical Posting	Pe-29.8	Discuss the etiology, clinical presentation and management of Acute Lymphoblastic Leukemia in children	Lecture	Lunch	Pe-Module 4.7:	Case studies in ethics and patient autonomy	Pedia	Evening Clinics
Day-195	PS2.1	Define stress and describe its components and causes.	DOAP Session Lecture, Small group Discussion	Clinical Posting	IM13.19	Describe the therapies used in alleviating suffering in patients at the end of life	IL	Lunch	Pe-29.9	Discuss the etiology, clinical presentation and management of lymphoma in children	Small Group Discussion	Sports/ECC A
Day-196	SU29.5	Describe the clinical features, investigations and principles of management of renal calculi	lecture	Clinical Posting	35.1	Write a proper referral note to secondary or tertiary centres or to other physicians with all necessary details	Demonstration/ Small group discussion		IM10.28	Describe and discuss the indications for renal replacement therapy	IL/small group discussion	Evening Clinics
Day-197	IM15.2 TO IM15.3	Enumerate, describe and discuss the evaluation and steps involved in stabilizing a patient who presents with acute volume loss and GI bleed Describe and discuss the physiologic effects of acute blood and volume loss	IL	Clinical Posting	OR5.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints	Lecture, Small group discussion, Bedside clinic	Lunch	OBG-18.3	Describe and discuss the diagnosis of birth asphyxia	Intergrated Teaching/pediatrics	Evening Clinics
Day-198	OBG-14.2	Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management	Lecture	Clinical Posting	SU29.5	Describe the clinical features, investigations and principles of management of renal calculi	lecture	Lunch	SU	Urology	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-199	IM12.12 TO IM12.13	Describe and discuss the iodisation programs of the government of India Describe the pharmacology, indications, adverse reaction, interactions of thyroxine and antithyroid drugs	IL	Clinical Posting	OBG-14.4	Describe and discuss the classification; diagnosis; management of abnormal labor	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-200	SU29.5	Describe the clinical features, investigations and principles of management of renal calculi	lecture	Clinical Posting	Pe-29.4	Discuss the etio-pathogenesis, clinical features and management of Hemolytic anemia, Thalassemia Major, Sickle cell anaemia, Hereditary spherocytosis, Auto-immune hemolytic anaemia and hemolytic uremic syndrome	Lecture	Lunch	Pe-Module 4.7:	Case studies in ethics and patient autonomy	Pedia	Evening Clinics
Day-201	RD 1.2	Describe the evolution of Radio diagnosis. Identify various radiological equipments in the current era.	Lecture, Demonstration	Clinical Posting	IM18.1	Describe the functional and the vascular anatomy of the brain	IL	Lunch	Pe-22.1	Enumerate the common Rheumatological problems in children. Discuss the clinical approach to recognition and referral of a child with Rheumatological problem	Small Group Discussion	Sports/ECC A
Day-202	SU29.6	Describe the clinical features, investigations and principles of management of renal tumours	lecture	Clinical Posting	OBG-35.5,35.7	Determine gestational age, EDD and obstetric formula/Obtain informed consent for any examination / procedure	Self Directed Learning		IM10.29	Describe discuss and communicate the ethical and legal issues involved in renal replacement therapy	IL/small group discussion	Evening Clinics

Day-203	IM15.4 TO IM15.5	Elicit and document and present an appropriate history that identifies the route of bleeding, quantity, grade, volume loss, duration, etiology, comorbid illnesses and risk factors Perform, demonstrate and document a physical examination based on the history that includes general examination, volume assessment and appropriate abdominal examination	IL	Clinical Posting	OR5.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of various inflammatory disorder of joints	Lecture, Small group discussion, Bedside clinic	Lunch	OBG-34.3	Describe and discuss the etiology, pathology, classification, staging, clinical features, differential diagnosis, investigations and management of gestational trophoblastic disease	Seminar	Evening Clinics
Day-204	OBG-17.1	Describe and discuss the physiology of lactation	Lecture	Clinical Posting	SU29.6	Describe the clinical features, investigations and principles of management of renal tumours	Small Group Discussion	Lunch	SU	Anal Canal	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-205	IM12.14 TO IM12.1	Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis	IL	Clinical Posting	OBG-17.3	Describe and discuss the clinical features, diagnosis and management of mastitis and breast abscess	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-206	SU29.6	Describe the clinical features, investigations and principles of management of renal tumours	lecture	Clinical Posting	Pe-22.3	Describe the diagnosis and management of common vasculitic disorders including Henoch Schonlein Purpura, Kawasaki Disease, SLE, JIA	Small Group Discussion	Lunch	Pe-Module 4.7:	Case studies in ethics and patient autonomy	Pedia	Evening Clinics
Day-207	RD 1.3	Enumerate Indications for various common radiological investigations choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder of ENT.	Lecture, Demonstration	Clinical Posting	IM18.2 TO IM18.3	Classify cerebrovascular accidents and describe the aetiology, predisposing genetic and risk factors pathogenesis of hemorrhagic and non hemorrhagic stroke Elicit and document and present an appropriate history including onset, progression, precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the cerebrovascular accident	IL	Lunch	Pe-23.1,23.16,26.17	Discuss the Hemodynamic changes, clinical presentation, complications and management of Acyanotic Heart Diseases –VSD, ASD and PDA,,Discuss the indications and limitations of Cardiac catheterization,, Enumerate some common cardiac surgeries like BT shunt, Potts and Waterston's and corrective surgeries	Lecture	Sports/ECC A
Day-208	SU29.6	Describe the clinical features, investigations and principles of management of renal tumours	lecture	Clinical Posting	OBG-35.8	Write a complete case record with all necessary details	Demonstration/ Small group discussion		IM10.30	Recognise the impact of CKD on patient's quality of life well being work and family	IL/small group discussion	Evening Clinics
Day-209	IM15.6	Distinguish between upper and lower gastrointestinal bleeding based on the clinical features	IL	Clinical Posting	OR6.1	Describe and discuss the clinical features, investigations and principles of management of degenerative condition of spine (Cervical Spondylosis, Lumbar Spondylosis, PID)	Lecture, Small group discussion, Case discussion	Lunch	OBG-20.2	In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy	Seminar	Evening Clinics
Day-210	OBG-19.1	Describe and discuss the physiology of puerperium, its complications, diagnosis and management; counselling for contraception, puerperal sterilization	Lecture	Clinical Posting	SU29.6	Describe the clinical features, investigations and principles of management of renal tumours	Small Group Discussion	Lunch	SU	Anal Canal	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-211	IM12.14 TO IM12.15	Write and communicate to the patient appropriately a prescription for thyroxine based on age, sex, and clinical and biochemical status Describe and discuss the indications of thionamide therapy, radio iodine therapy and surgery in the management of thyrotoxicosis	IL	Clinical Posting	OBG-19.2	Counsel in a simulated environment, contraception and puerperal sterilisation	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-212	SU29.6	Describe the clinical features, investigations and principles of management of renal tumours	lecture	Clinical Posting	Pe-23.2	Discuss the Hemodynamic changes, clinical presentation, complications and management of Cyanotic Heart Diseases – Fallot's Physiology	Lecture	Lunch	Pe-Module 4.7:	Case studies in ethics and patient autonomy	Pedia	Evening Clinics
Day-213	RD 1.4	Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in Ob & Gy.	Lecture, Demonstration	Clinical Posting	IM18.4	Identify the nature of the cerebrovascular accident based on the temporal evolution and resolution of the illness	IL	Lunch	Pe-23.3	Discuss the etio-pathogenesis, clinical presentation and management of cardiac failure in infant and children	Lecture	Sports/ECC A
Day-214	SU29.7	Describe the principles of management of acute and chronic	lecture	Clinical Posting	OBG-27.3	Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of HIV	Tutorial		IM10.31	Incorporate patient preferences in to the care of CKD	IL/small group discussion	Evening Clinics
Day-215	IM15.6	Distinguish between upper and lower gastrointestinal bleeding based on the clinical features	IL	Clinical Posting	OR7.1	Describe and discuss the aetiopathogenesis, clinical features, investigation and principles of management of metabolic bone disorders in particular osteoporosis, osteomalacia, rickets, Paget's disease	Lecture, Small group discussion, Case discussion	Lunch	OBG-18.4	Describe the principles of resuscitation of the newborn and enumerate the common problems encountered	Intergrated Teaching/pediatrics	Evening Clinics
Day-216	OBG-21.1	Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	Lecture	Clinical Posting	SU29.7	Describe the principles of management of acute and chronic retention of urine	Small Group Discussion	Lunch	SU	Anal Canal	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-217	IM20.1 TO IM20.2	Enumerate the local poisonous snakes and describe the distinguishing marks of each Describe, demonstrate in a volunteer or a mannequin and educate (to other health care workers / patients) the correct initial management of patient with a snake bite in the field	IL	Clinical Posting	OBG-21.1	Describe and discuss the temporary and permanent methods of contraception, indications, technique and complications; selection of patients, side effects and failure rate including Ocs, male contraception, emergency contraception and IUCD	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics

Day-218	SU29.7	Describe the principles of management of acute and chronic	lecture	Clinical Posting	Pe-23.4,23.5	Discuss the etio-pathogenesis, clinical presentation and management of Acute Rheumatic Fever in children, Discuss the clinical features, complications, diagnosis, management and prevention of Acute Rheumatic Fever	Lecture	Lunch	Pe-Module 4.8:	Dealing with death	Pedia	Evening Clinics
Day-219	RD 1.5	Enumerate indications for various common radiological investigations choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorder in internal medicine.	Lecture, Demonstration	Clinical Posting	IM18.5 TO IM18.6	Perform, demonstrate & document physical examination that includes general and a detailed neurologic examination as appropriate, based on the history Distinguish the lesion based on upper vs lower motor neuron, side, site and most probable nature of the lesion	IL	Lunch	Pe-23.6	Discuss the etio-pathogenesis, clinical features and management of Infective endocarditis in children	Small Group Discussion	Sports/ECC A
Day-220	SU29.7	Describe the principles of management of acute and chronic	lecture	Clinical Posting	OBG-17.1	Describe and discuss the physiology of lactation	Self Directed Learning		IM14.1	Define and measure obesity as it relates to the Indian population	IL/small group discussion	Evening Clinics
Day-221	IM15.7 TO IM15.9	Demonstrate the correct technique to perform an anal and rectal examination in a mannequin or equivalent Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Choose and interpret diagnostic tests based on the clinical diagnosis including complete blood count, PT and PTT, stool examination, occult blood, liver function tests, H.pylori test.	IL	Clinical Posting	OR8.1	Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with Post Polio Residual Paralysis	Lecture, Small group discussion, Case discussion	Lunch	OBG-25.1	Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management.	Seminar	Evening Clinics
Day-222	OBG-12.1	Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	Lecture	Clinical Posting	SU29.7	Describe the principles of management of acute and chronic retention of urine	Small Group Discussion	Lunch	SU	Rectum	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-223	IM20.3 TO IM20.4	Describe the initial approach to the stabilisation of the patient who presents with snake bite Elicit and document and present an appropriate history, the circumstance, time, kind of snake, evolution of symptoms in a patient with snake bite	IL	Clinical Posting	OBG-12.1	Define, classify and describe the etiology and pathophysiology, early detection, investigations; principles of management of hypertensive disorders of pregnancy and eclampsia, complications of eclampsia	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-224	SU29.7	Describe the principles of management of acute and chronic	lecture	Clinical Posting	Pe-27.3.27.4	Describe the etio-pathogenesis of respiratory distress in children, Describe the clinical approach and management of respiratory distress in children	Small Group Discussion	Lunch	Pe-Module 4.8:	Dealing with death	Pedia	Evening Clinics
Day-225	RD 1.6	Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery	Lecture, Demonstration	Clinical Posting	IM18.7 TO IM18.8	Describe the clinical features and distinguish, based on clinical examination, the various disorders of speech Describe and distinguish, based on the clinical presentation, the types of bladder dysfunction seen in CNS disease	IL	Lunch	Pe-27.1,27.2,27.29	List the common causes of morbidity and mortality in the under five children , Describe the etio-pathogenesis, clinical approach and management of cardiorespiratory arrest in children, Discuss the common causes, clinical presentation, medico-legal implications of abuse.	Small Group Discussion/Self directed learning	Sports/ECC A

Day-226	SU29.8	Describe the clinical features, investigations and principles of management of bladder cancer	lecture	Clinical Posting	OBG-17.2	Counsel in a simulated environment, care of the breast, importance and the technique of breast feeding	Demonstration/ Small group discussion		IM14.2 TO IM14.3	Describe and discuss the aetiology of obesity including modifiable and non-modifiable risk factors and secondary causes Describe and discuss the monogenic forms of obesity	IL/small group discussion	Evening Clinics
Day-227	IM15.7 TO IM15.9	Demonstrate the correct technique to perform an anal and rectal examination in a mannequin or equivalent Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis Choose and interpret diagnostic tests based on the clinical diagnosis including complete blood count, PT and PTT, stool examination, occult blood, liver function tests, H.pylori test.	IL	Clinical Posting	OR8.1	Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management a patient with Post Polio Residual Paralysis	Lecture, Small group discussion, Case discussion	Lunch	OBG-24.1	Define, classify and discuss abnormal uterine bleeding, its aetiology, clinical features, investigations, diagnosis and management	Seminar	Evening Clinics
Day-228	OBG-26.2	Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	Lecture	Clinical Posting	SU29.8	Describe the clinical features, investigations and principles of management of bladder cancer	Small Group Discussion	Lunch	SU	Rectum	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-229	IM20.5 TO IM20.6	Perform a systematic examination, document and present a physical examination that includes general examination, local examination, appropriate cardiac and neurologic examination Choose and interpret the appropriate diagnostic testing in patients with snake bites	IL	Clinical Posting	OBG-26.2	Describe the causes, prevention, clinical features, principles of management of genital injuries and fistulae	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-230	SU29.8	Describe the clinical features, investigations and principles of management of bladder cancer	lecture	Clinical Posting	Pe-27.5	Describe the etio-pathogenesis, clinical approach and management of Shock in children	Small Group Discussion	Lunch	Pe-Module 4.8:	Dealing with death	Pedia	Evening Clinics
Day-231	RD 1.6	Enumerate indications for various common radiological investigations, choose the most appropriate and cost effective method and interpret findings in common conditions pertaining to disorders in surgery	Lecture, Demonstration	Clinical Posting	IM18.9	Choose and interpret the appropriate diagnostic and imaging test that will delineate the anatomy and underlying cause of the lesion	IL	Lunch	Pe-27.6	Describe the etio-pathogenesis, clinical approach and management of Status epilepticus	Small Group Discussion	Sports/ECC A
Day-232	SU29.8	Describe the clinical features, investigations and principles of management of bladder cancer	lecture	Clinical Posting	OBG-18.3	Describe and discuss the diagnosis of birth asphyxia	Self Directed Learning		IM14.4 TO IM14.5	Describe and discuss the impact of environmental factors including eating habits, food, work, environment and physical activity on the incidence of obesity	IL/small group discussion	Evening Clinics
Day-233	IM15.10 TO IM15.12	Enumerate the indications for endoscopy, colonoscopy and other imaging procedures in the investigation of Upper GI bleeding Develop, document and present a treatment plan that includes fluid resuscitation, blood and blood component transfusion, and specific therapy for arresting blood loss Enumerate the indications for whole blood, component and platelet transfusion and describe the clinical features and management of a mismatched transfusion	IL	Clinical Posting	OR9.1	Describe and discuss the aetiopathogenesis, clinical features, assessment and principles of management of Cerebral palsy patient	Lecture, Small group discussion	Lunch	OBG-12.4	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of heart diseases in pregnancy	Intergrated Teaching/Medicine	Evening Clinics
Day-234	OBG-12.7	Describe and discuss screening, risk factors, management of mother and newborn with HIV	Lecture	Clinical Posting	SU29.8	Describe the clinical features, investigations and principles of management of bladder cancer	Small Group Discussion	Lunch	SU	Appendix	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics

Day-235	IM20.7 TO IM20.8	Enumerate the indications and describe the pharmacology, dose, adverse reactions, hypersensitivity reactions of anti snake venom Describe the diagnosis, initial approach stabilisation and therapy of scorpion envenomation	IL	Clinical Posting	OBG-12.8	Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
Day-236	SU29.8	Describe the clinical features, investigations and principles of management of bladder cancer	lecture	Clinical Posting	Pe-27.7,27.8	Describe the etio-pathogenesis, clinical approach and management of an unconscious child,,Discuss the common types, clinical presentations and management of poisoning in children	Small Group Discussion	Lunch	Pe-Module 4.8:	Dealing with death	Pedia	Evening Clinics
Day-237	AS 1.2	Describe the roles of Anesthesiology in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labor analgesia, in the resuscitation of acutely ill.	Lecture	Clinical Posting	IM18.10 TO IM18.11	Enumerate the indications for and describe acute therapy of non hemorrhagic stroke including the use of thrombolytic agents Enumerate the indications for and describe the role of anti platelet agents in non hemorrhagic stroke Describe the initial management of a hemorrhagic stroke Enumerate the indications for surgery in a hemorrhagic stroke	IL	Lunch	Pe-27.9,27.11,27.12,27.13	Discuss oxygen therapy, in Pediatric emergencies and modes of administration,,Explain the need and process of triage of sick children brought to health facility,, Enumerate emergency signs and priority signs ,,List the sequential approach of assessment of emergency and priority signs	Small Group Discussion/Self directed learning	Sports/ECC A
Day-238	SU29.9	Describe the clinical features, investigations and principles of	lecture	Clinical Posting	OBG-12.3	Define, classify and describe the etiology, pathophysiology, diagnosis, investigations, criteria, adverse effects on the mother and foetus and the management during pregnancy and labor, and complications of diabetes in pregnancy	Tutorial		IM14.6	Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight	IL/small group discussion	Evening Clinics
Day-239	IM15.13 TO IM15.14	Observe cross matching and blood / blood component transfusion Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy of pressors used in the treatment of Upper GI bleed	IL	Clinical Posting	OR10.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of benign and malignant bone tumours and pathological fractures	Lecture, Small group discussion, Video assisted interactive lecture	Lunch	OBG-30.1	Describe and discuss the etiopathogenesis; clinical features; differential diagnosis; investigations; management, complications of PCOS	Seminar	Evening Clinics
Day-240	OBG-16.1	Enumerate and discuss causes, prevention, diagnosis, management, appropriate use of blood and blood products in postpartum haemorrhage	Lecture	Clinical Posting	SU29.9	Describe the clinical features, investigations and principles of management of disorders of prostate	Small Group Discussion	Lunch	SU	Appendix	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-241	IM20.9	Describe the diagnosis initial approach stabilisation and therapy of bee sting allergy	IL	Clinical Posting	OBG-16.2	Describe and discuss uterine inversion – causes, prevention, diagnosis and management.	Small Group Discussion	Lunch	FA & Feedback	Obs & Gynae		Evening Clinics

Day-242	SU29.9	Describe the clinical features, investigations and principles of	lecture	Clinical Posting	Pe-27.24,27.25,27.26	Monitoring and maintaining temperature: define hypothermia. Describe the clinical features, complications and management of Hypothermia „Describe the advantages and correct method of keeping an infant warm by skin to skin contact „Describe the environmental measures to maintain temperature	Small Group Discussion	Lunch	Pe-Module 4.8:	Dealing with death	Pedia	Evening Clinics
Day-243	AS 1.2	Describe the roles of Anesthesiology in the medical profession (including as a peri-operative physician, in the intensive care and high dependency units, in the management of acute and chronic pain, including labor analgesia, in the resuscitation of acutely ill.	Lecture	Clinical Posting	IM18.12 TO IM18.15	Enumerate the indications for and describe acute therapy of non hemorrhagic stroke including the use of thrombolytic agents Enumerate the indications for and describe the role of anti platelet agents in non hemorrhagic stroke Describe the initial management of a hemorrhagic stroke Enumerate the indications for surgery in a hemorrhagic stroke	IL	Lunch	Pe-30.1,30.2	Discuss the etio-pathogenesis, clinical features , complications, management and prevention of meningitis in children, Distinguish bacterial, viral and tuberculous meningitis	Lecture	Sports/ECC A
Day-244	SU29.9	Describe the clinical features, investigations and principles of	lecture	Clinical Posting	OBG-12.8	Describe the mechanism, prophylaxis, fetal complications, diagnosis and management of isoimmunization in pregnancy	Self Directed Learning		IM14.7	Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and comorbidities	IL/small group discussion	Evening Clinics
Day-245	IM15.13 TO IM15.14	Observe cross matching and blood / blood component transfusion Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy of pressors used in the treatment of Upper GI bleed	IL	Clinical Posting	OR11.1	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of peripheral nerve injuries in diseases like foot drop, wrist drop, claw hand, palsies of Radial, Ulnar, Median, Lateral Popliteal and Sciatic Nerves	Lecture, Small group discussion, case discussion	Lunch	OBG-30.2	Enumerate the causes and describe the investigations and management of hyperandrogenism	Seminar	Evening Clinics
Day-246	OBG-20.1	Enumerate the indications and describe and discuss the legal aspects, indications, methods for first and second trimester MTP; complications and management of Termination of Pregnancy	Lecture	Clinical Posting	SU29.9	Describe the clinical features, investigations and principles of management of disorders of prostate	Small Group Discussion	Lunch	SU	Appendix	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-247	IM21.1 TO IM21.2	Describe the initial approach to the stabilisation of the patient who presents with poisoning Enumerate the common plant poisons seen in your area and describe their toxicology, clinical features, prognosis and specific approach to detoxification	IL	Clinical Posting	OBG-20.2	In a simulated environment administer informed consent to a person wishing to undergo Medical Termination of Pregnancy	Small Group Discussion	Lunch	FA & Feedback	Pediatrics		Evening Clinics
Day-248	SU29.9	Describe the clinical features, investigations and principles of	lecture	Clinical Posting	Pe-30.3,30.4,30.5	Discuss the etio-pathogenesis, classification, clinical features, complication and management of Hydrocephalus in children., Discuss the etio-pathogenesis, classification, clinical features, and management of Microcephaly in children., Enumerate the Neural tube defects. Discuss the causes, clinical features, types, and management of Neural Tube defect	Small Group Discussion	Lunch	Module 4.9:	Medical Negligence	Forensic	Evening Clinics

Day-249	AS 1.3	Enumerate and describe the principle of ethics as it relates to Anesthesiology.	Lecture	Clinical Posting	IM18.16 TO IM18.17	Enumerate the indications describe and observe the multidisciplinary rehabilitation of patients with a CVA Counsel patient and family about the diagnosis and therapy in an empathetic manner	IL	Lunch	Pe-30.6	Discuss the etio-pathogenesis, clinical features, and management of Infantile hemiplegia	Lecture	Sports/ECC A
Day-250	SU29.10	Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	lecture	Clinical Posting	OBG-35.15	Demonstrate the correct technique to insert and remove an IUD in a simulated/ supervised environment	Demonstration/ Small group discussion		IM14.8	Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis	IL/small group discussion	Evening Clinics
Day-251	IM15.14 TO IM15.15	Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy of pressors used in the treatment of Upper GI bleed Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy of acid peptic disease including Helicobacter pylori	IL	Clinical Posting	OR12.1	Describe and discuss the clinical features, investigations and principles of management of Congenital and acquired malformations and deformities of: a. limbs and spine - Scoliosis and spinal bifida b. Congenital dislocation of Hip,Torticollis, c. congenital talipes equino varus	Lecture, Small group discussion	Lunch	OBG-12.6	Describe the clinical features, detection, effect of pregnancy on the disease and impact of the disease on pregnancy complications and management of liver disease in pregnancy	Intergrated Teaching/medicine	Evening Clinics
Day-252	OBG-25.1	Describe and discuss the causes of primary and secondary amenorrhea, its investigation and the principles of management	Lecture	Clinical Posting	SU29.10	Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	Small Group Discussion	Lunch	SU	Large Bowel	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-253	IM21.3	Enumerate the common corrosives used in your area and describe their toxicology, clinical features, prognosis and approach to therap	IL	Clinical Posting	OBG-26.1	Describe and discuss the etiopathogenesis, clinical features; investigation and implications on health and fertility and management of endometriosis and adenomyosis	Small Group Discussion	Lunch	FA & Feedback	ortho		Evening Clinics
Day-254	SU29.10	Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	lecture	Clinical Posting	Pe-30.7,30.8,30.9	Discuss the etio-pathogenesis, clinical features, complications and management of Febrile seizures in children,,Define epilepsy. Discuss the pathogenesis, clinical types, presentation and management of Epilepsy in children,,Define status Epilepticus. Discuss the clinical presentation and management	Lecture	Lunch	Module 4.9:	Medical Negligence	Forensic	Evening Clinics
Day-255	AS 1.4	Describe the prospects of Anesthesiology as a career.	Lecture	Clinical Posting	IM19.1	Describe the functional anatomy of the locomotor system of the brain	IL	Lunch	Pe-30.10,30.11	Discuss the etio-pathogenesis, clinical features and management of Mental retardation in children,, Discuss the etio-pathogenesis, clinical features and management of children with cerebral palsy	Small Group Discussion	Sports/ECC A
Day-256	SU29.10	Demonstrate a digital rectal examination of the prostate in a mannequin or equivalent	lecture	Clinical Posting	OBG-14.2	Discuss the mechanism of normal labor, Define and describe obstructed labor, its clinical features; prevention; and management	Self Directed Learning		IM14.8	Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis	IL/small group discussion	Evening Clinics
Day-257	IM15.16	Enumerate the indications for endoscopic interventions and Surgery	IL	Clinical Posting	OR13.1	Participate in a team for procedures in patients and demonstrating the ability to perform on mannequins / simulated patients in the following: i. Above elbow plaster ii. Below knee plaster iii. Above knee plaster iv. Thomas splint v. splinting for long bone fractures vi. Strapping for shoulder and clavicle trauma	Case discussion, Video assisted Lecture, Small group discussion, Teaching, Skill lab sessions	Lunch	OBG-34.2	Describe and discuss the etiology, pathology, classification, staging of ovarian cancer, clinical features, differential diagnosis, investigations, principal of management including staging laparotomy	Seminar	Evening Clinics

Day-258	OBG-27.4	Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	Lecture	Clinical Posting	SU29.11	Describe clinical features, investigations and management of urethral strictures	Small Group Discussion	Lunch	SU	Large Bowel	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-259	IM21.4 TO IM21.5	Describe the medico legal aspects of suspected suicidal or homicidal poisoning and demonstrate the correct procedure to write a medico legal report on a suspected poisoning Counsel family members of a patient with suspected poisoning about the clinical and medico legal aspects with empathy	IL	Clinical Posting	OBG-27.4	Describe and discuss the etiology, pathology, clinical features, differential diagnosis, investigations, management and long term implications of Pelvic Inflammatory Disease	Small Group Discussion	Lunch	FA & Feedback	Medicine		Evening Clinics
Day-260	SU29.11	Describe clinical features, investigations and management of urethral strictures	lecture	Clinical Posting	Pe-30.12,30.14	Enumerate the causes of floppiness in an infant and discuss the clinical features, differential diagnosis and management,, Discuss the etio-pathogenesis, clinical features and management of Duchene muscular dystrophy	Small Group Discussion	Lunch	Module 4.9:	Medical Negligence	Forensic	Evening Clinics
Day-261	AS 2.1	Enumerate the indications describe the steps and demonstrate in a simulated environment, Basic Life Support in adults, children and neonates.	DOAP Session	Clinical Posting	IM19.2 TO IM19.3	Classify movement disorders of the brain based on distribution, rhythm, repetition, exacerbating and relieving factors Elicit and document and present an appropriate history including onset, progression precipitating and aggravating relieving factors, associated symptoms that help identify the cause of the movement disorders	IL	Lunch	Pe-30.13,30.15	Discuss the etio-pathogenesis, clinical features, management and prevention of Poliomyelitis in children,,Discuss the etio-pathogenesis, clinical features and management of Ataxia in children	Small Group Discussion	Sports/ECC A
Day-262	SU29.11	Describe clinical features, investigations and management of urethral strictures	lecture	Clinical Posting	OBG-14.1	Enumerate and discuss the diameters of maternal pelvis and types	Tutorial		IM14.09TO IM14.13	Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc. Describe the indications and interpret the results of tests for secondary causes of obesity Communicate and counsel patient on behavioural, dietary and lifestyle modifications Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non - judgemental way Describe and enumerate the indications, pharmacology and side effects of pharmacotherapy for obesity	IL/small group discussion	Evening Clinics
Day-263	IM15.17	Determine appropriate level of specialist consultation	IL	Clinical Posting	OR13.2	Participate as a member in team for Resuscitation of Polytrauma victim by doing all of the following : (a) I.V. access central - peripheral (b) Bladder catheterization (c) Endotracheal intubation (d) Splintage	Lecture, Small group discussion	Lunch	OBG-32.2	Enumerate the causes of postmenopausal bleeding and describe its management	Seminar	Evening Clinics
Day-264	OBG-31.1	Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Lecture	Clinical Posting	SU29.11	Describe clinical features, investigations and management of urethral strictures	Small Group Discussion	Lunch	SU	Pancreas	Small Group Discussion / DOAP /Seminar /Symposium	Evening Clinics
Day-265	IM21.6 TO IM21.7	Describe the medico legal aspects of suspected suicidal or homicidal poisoning and demonstrate the correct procedure to write a medico legal report on a suspected poisoning Counsel family members of a patient with suspected poisoning about the clinical and medico legal aspects with empathy	IL	Clinical Posting	OBG-31.1	Describe and discuss the etiology, classification, clinical features, diagnosis, investigations, principles of management and preventive aspects of prolapse of uterus	Small Group Discussion	Lunch	FA & Feedback	Surgery		Evening Clinics
